📍 Pune, Maharashtra, India

📅 08/04/2004

ABOUT ME

I am a Computer Engineering student passionate about building innovative digital solutions through web, mobile, IoT, and AI-driven full stack projects. I enjoy exploring new technologies, solving real-world problems, and creating user-focused applications with clean and efficient design. With a strong learning mindset, adaptability, and teamwork skills, I continuously strive to improve my technical expertise while taking on new challenges and opportunities for growth.

EDUCATION

Diploma in Computer Engineering

Government Polytechnic Pune

📅 08/2023 - 06/2026 📍 Pune, India

Higher Secondary Education (HSC)

Rajarshi Shahu Mahavidyalaya, Latur

📅 06/2020 - 04/2022 📍 Latur

PROJECTS

Ecoscan

📅 05/2026 - Present 📍 Pune, India

🔗 <https://ecoscan-dk8m.onrender.com>

AI-Driven NLP Engine for Shadow Carbon Cost in E-Commerce.

- AI-powered sustainability analysis platform that scans products, calculates carbon footprint, provides eco-friendly recommendations using LLMs, and gamifies sustainable decision-making.

Smart MedCare

📅 07/2025 - 11/2025 📍 Pune, India

🔗 <https://medcare-frontend-2z67.onrender.com>

A project focusing on health monitoring through IoT technology.

- IoT Health Monitoring system tracking vitals (BP, heart-rate, SpO2) and hormones, with real-time alerts and rural-friendly design.

Portfolio Website

📅 08/2025 - 08/2025 📍 Pune, India

🔗 <https://spm175-portfolio.vercel.app>

A personal portfolio to showcase projects and skills.

- Designed and built a personal portfolio website using React, TailwindCSS, and Framer Motion for interactive UI.

COURSES

Python 3.4.3

The training program was completed through self-learning using Spoken Tutorials and by passing an online test.

Internet of Things 101

Arduino-Sensors skills were applied by working on practical IoT setups, where sensors were connected to Arduino boards.

SKILLS

Group Title

C/C++

HTML/CSS

JavaScript

DSA

IoT

Java

SpringBoot

Python

Flask

GitHub

Git

PostgreSQL

MongoDB

RESTful APIs

React

Node.js

Next.js

Vite

Vercel

Render

JSP/Servlet

EXPERIENCE

ETHC Graduate Fellow

DCNETRA School ERP

📅 07/2026 - Present 📍 Pune, India

A product-oriented technology company focused on developing scalable ERP and digital solutions for educational institutions.

- Developing an Agentic AI RAG project focused on autonomous workflows and knowledge-based AI systems.

ETHC Project Intern

DCNETRA School ERP

📅 12/2025 - 06/2026 📍 Pune, India

A product-oriented technology company focused on developing scalable ERP and digital solutions for educational institutions.

- Gained hands-on experience in a product-oriented ERP environment, contributing to technical solutions and application development.
- Applied backend and web development skills using JSP, Spring Boot, REST APIs, and PostgreSQL during internship projects

VOLUNTEERING

NSS Member

National Service Scheme

📅 08/2023 - 06/2026 📍 Pune, India

Volunteered under NSS in social initiatives including blood donation camps, tree plantation drives, and event management during Republic.
